

GeoAge technology showcase at HiTec 2010

GeoAge will be showcasing [SurveyMe](#) at HiTec, the World's Largest Hospitality Technology Show.

HITEC brings the brightest minds and hottest technology to one place. SurveyMe allows hospitality professionals the power to obtain real-time customer feedback using mobile surveys.

Surveys can be quickly created and distributed using the SurveyMe designer tool. Respondents' can answer surveys on any smartphone with a browser to provide instant feedback.

Built in reporting and visualization tools allow in depth analysis of the data captured.

All of these features combine to provide hospitality professionals insight and competitive advantage.

HiTec offers a unique opportunity to showcase leading technology such as SurveyMe to industry experts.
